

## “Free Point” Placement for Claudia’s Creations Designs

Open the **Design / Mark the first stitch placement** on the template with arrow post it note. Hoop the fabric according to instructions & attach the hoop to the module.

Touch the **Edit Icon (pencil)** return to the **Main Screen**.

Touch **Information Icon**

Touch **Pinpoint Placement** (second icon down, on the right)

**Butterfly Box is NOT Selected (no yellow outline)**

1.  **Zoom in 4 - 5 times**

2.  **Find Circle Marker on screen** (it's positioned at the first stitch of the design)

3.  Touch **Free Point** (rectangle Butterfly turns yellow) then **Touch screen** where the **Circle Marker** was!  **Marker drops on screen.**

4.  Use **Zigzag & Straight Stitch** knobs to move the needle position to the “**green start arrow**” per my instructions. The 1st Marker & Needle location coordinate the screen & fabric positions together.

5. **Touch Set**  Locks in the **1st Marker position**. Design will rotate off this point.

**Zoom out** to see the whole **Placement Line**.

Look in my instructions and find the “**red end arrow**”  this is the location for the **2nd marker**. **TOUCH THE SCREEN** to position the **2nd marker**. **Zoom in** 4-5 times to make sure the position is correct! Now, **Zoom out** to see both markers!

Use **ONE KNOB ONLY** to rotate the design. Using the wrong **Knob** will **RE-SIZE** the design.

If markers are mostly **up & down-ish** (vertical)  Use the **ZIGZAG KNOB** (**top knob**) to rotate the design.

If markers are mostly **side to side-ish** (horizontal)   Use **STRAIGHT STITCH KNOB** to rotate the design..

**Do Not “Set” the second marker yet**, design holds its position. On screen touch areas on the **Placement Line**, working your way back to the 1st Marker by lowering needle confirming correct position (**aka: “sewing without thread”**)

**Touch Set**  Locks in position of 2nd Marker, nodes disappear (this is weird but they are still set!!)  
Note: you can retouch on the screen to start a new set of markers if needed.

Touch **Information Icon** (returns to Main Menu)

Touch **Needle Icon** (lower right corner returns to embroidery)

Advance to **Color #2**.

## Cheat Sheet "Free Point" Placement for Claudia's Creations Designs

Open the design, advance to **Color #1**

---

Edit Pencil

Information

Pin Point

---

### Step #1. Set First Marker

Butterfly Box **NOT SELECTED** (no yellow outline)

Zoom in 4 - 5 times to easily see the  on the screen

This is where you want to **set the first marker**

**TOUCH THE SCREEN** to drop the First Marker

**TOUCH** Free Point Butterfly Icon  (the marker disappears)

**TOUCH** the **SCREEN** where the **Circle Marker** used to be

Use **Zigzag & Straight Stitch** to move the needle position

The 1st Marker & Needle location coordinate the screen & fabric positions.

**Touch Set**

---

### Step #2. Set Second Marker

**Touch the end** of the Placement Line **OR**

Touch **anywhere** on the Placement Line if you don't know where the end is **OR**

Try to **find an angle shape** on the Placement Line **OR**

Try to **find the top of a curve** on the Placement Line

Use **EITHER** the **Zigzag** OR **Straight Stitch** knob to move the needle into position

Retouch **on the Placement Line** as you "walk the line" towards the end of the line.

**Touch Set**
